FEATURED KEYNOTE SPEAKERS

2022 ITEN WIRED SUMMIT

ITEN WIRED brings speakers from across the country to share their expertise and enthusiasm for high tech areas of innovation. In 2022, ITEN WIRED speakers will discuss everything from High Tech Innovation and Microservices to Cyber Forensics.

Speakers come from all backgrounds, including State of Florida Chief Information Officer, Cybersecurity & Infrastructure Security Agency, Department of Homeland Security, Pen Air Federal Credit Union and many more.

Richard Staynings
Chief Security Strategist, Cylera

Richard Staynings is a globally renowned thought leader, author, public speaker and advocate for improved cybersecurity across the Healthcare and Life Sciences industry.

He has served on various industry and international cybersecurity committees and presented or lectured on cybersecurity themes or concerns all over the world. He has advised numerous government and industry leaders on their security strategy and defensive posture, and has served as a subject matter expert on government Committees of Inquiry into some of the highest profile cybersecurity attacks and breaches. Richard is currently Chief Security Strategist for Cylera, a pioneer in the space of medical device and HIoT security. He is also author of Cyber Thoughts, a leading healthcare cybersecurity blog, teaches postgraduate courses in cybersecurity and health informatics at the University of Denver University College, and is a retained advisor to a number of governments and private

companies. A recovering CISO, with more than 25 years' experience of both cybersecurity leadership and client consulting in healthcare, Richard has

lived in over 30 countries and delivered innovative solutions to organizations in all of them. Some of his more notable successes include work for: Amgen, Childrens' National, Cisco, CSC, Intermountain Healthcare, PeaceHealth, PwC, Intel, Microsoft and Zurich Financial, to name a few. After spending many years based out of the UK, Australia and various parts of Asia, Richard now resides in the shadows of the Rocky Mountains in Boulder, Colorado. When he's not flying between clients and conferences, Richard enjoys most things between mountaineering and scuba diving. Although he doesn't get to spend a lot of time at home, Richard is active in his local community and serves on several Boards in a pro-bono capacity.

Richard will deliver the opening keynote presentation Thursday, October 6 from 8:30 am to 9:30 am in the main Ballroom.
Keynote Presentation: "AI Will Radically Change IT & Cybersecurity"
